The Thousand-Year Periods of the Bible

The thousand-year periods of the Bible show how the ordered nature of God provides the step-by-step way out of belief and ignorance to a spiritual understanding of God, bringing life and peace.

| synonym | 1000-year period (symbol) | steps of unfolding understanding |
|-----------|--|--|
| Mind | Adam to Enoch (c. 4000 – 3000 B.C.) | awakening from ignorance (the mist of Eden) to follow the light of spiritual ideas (Enoch walks with God) |
| Spirit | Noah story with the flood to tower of Babel (c. 3000 – 2000 B.C.) | turning away from material beliefs to build an “ark” of understanding, remaining with the purity and onliness of spiritual ideas |
| Soul | Abraham, Isaac, Jacob, Joseph into Egypt, Moses leading people out of Egypt, entering the Promised Land, Joshua, Judges (c. 2000 – 1000 B.C.) | going the way from sense (Ur, Egypt) to Soul (Canaan, the Promised Land), exchanging a physical, corporeal identity for our spiritual selfhood |
| Principle | Samuel to the kings; the prophets (c. 1000 B.C. – 1 A.D.) | rejecting government by persons or material organizations and finding true government through prophecy, through the operation of Principle’s system of ideas, which interprets itself to mankind and governs the universe |
| Life | the life of Jesus, the apostles, Paul and the spreading of Christianity (c. 1 – 1000 A.D.) | laying down a mortal, material sense of life and accepting the newness of Life in and of Spirit as a gift of grace, bestowed on man through unity with Life |
| Truth | c. 1000 – 2000 A.D. | pioneering scientific consciousness, forcing the fall of mortal consciousness; grounding our understanding of true being and manhood in scientific methods rather than relying on blind faith |
| Love | c. 2000 A.D. onwards | the reign of divine Science: annihilation of fear, anxiety, provincialism, partiality, narrow-minded materialism; emergence of peace and fulfillment of the design of the Bible to establish a divinely scientific consciousness of God. |

The Seven Stages of Evolution

There are seven undeniable fundamental facts that cannot be explained by natural science, yet form the backbone of evolution. These are as follows:

- | | | |
|---|--|-----------|
| 1. “The beginning of life” | First Cause, creative ability, divine Will, Intelligence | MIND |
| 2. “The evolution of life toward more and more complex forms” | Evolution, irreversible progress, diversification | SPIRIT |
| 3. “The actual result of this long process, namely, man and the human brain” | Freedom, incorporeality, identity | SOUL |
| 4. “The birth of thought, and of moral and spiritual ideas” | Relation to God, obedience, government, ideas, harmony, coordination (system), spiritual power | PRINCIPLE |
| 5. “The spontaneous and independent development of these ideas in different parts of the terrestrial globe” | Spontaneity, simultaneity, instantaneity, individuality | LIFE |
| 6. The “transformation of man into an active, responsible individual” | Ideal, dominion, victory, human dignity | TRUTH |
| 7. The existence of a telefinalistic plan | Telefinalistic plan, fulfillment | LOVE |

Going out from another standpoint than God. God works good and evil. | <i>IX. CREATION</i> Only one universe, the universe of the infinite One. A finite and an infinite universe. | <i>XIII. TEACHING CHRISTIAN SCIENCE</i> Only like can understand like. Knowing Science through Science. Instructing ignorance so as to become understanding. |

From Metaphysics to Science

The ordered steps to finding our oneness with Being (Resolving the “personal I” into the “I Am”)

ascending way

Metaphysics: the contemplation of ideas

1. All is mental (*cogito, ergo sum*)
2. The mental can be good or evil
3. Thinking in terms of ideas
4. Thinking in terms of the synonyms for God

Science: the contemplation of the infinite One, including all ideas

5. Only the synonyms for God in us can be one with synonym of God
6. Life, Truth, and Love is the only “I” of us
7. The synonyms of God are the only “I” or Ego
8. The “I” is “I AM”

descending way

Science:

8. I AM that I Am
7. This I AM is the “I am” of all
6. This I AM is infinitely individualized as “individual I am”
5. This I AM has no other “I Am,” no “personal I”

Science including metaphysics:

4. This I AM is “the thinker” of us
3. This I AM gives us ideas/makes God’s thoughts and “my” thoughts identical
2. This I AM gives only good thoughts
1. This I AM makes us “the thought of” God and therefore, “I am” (*cogitor, ergo sum*)

| 1 st Edition (1875) MIND | No special chapter. The subject was treated in the chapter “Healing the Sick” (16 pages). Accent lies on observation, investigation, inquiring, gaining insight into the subject of mesmerism. |
| 2 nd Edition (1878) SPIRIT | Title of chapter: Mesmerism: (15 pages) Accent is on distinguishing between metaphysics and mesmerism, between “mind” and “Divine mind”. |
| 3 rd Edition SOUL | Title of chapter: “Demonology” (46 pages). Accent is on the malicious abuse of mesmerism, on the <i>modus operandi</i> of malicious malpractice. Now uses “Mind” capitalized. Basis of malpractice is animal nature. |
| 6 th Edition (1883) PRINCIPLE | Title of chapter: “Demonology” (12 pages). Accent is on impersonalizing animal magnetism. |
| 16 th Edition (1886) LIFE | Title of chapter: “Animal Magnetism” (13 pages). Accent is on dragon’s warfare against the woman, animal magnetism warring with the divine idea. Without a knowledge of animal magnetism, error continues and increases. 1886–91 Department on “Animal Magnetism” in Journal 1887 “Ways that are vain: (<i>Miscellany</i> , by Mary Baker Eddy, pp. 210–213)—was not put into Prose Works by Mrs. Eddy. 1889 “Malicious Animal Magnetism” (Christian Science Journal, February). 1890 “A Card” (Christian Science Journal, August). |
| 50 th Edition (1891) TRUTH | Title of chapter: “Animal Magnetism” (7 pages) Text similar to final edition. Dropped all of those passages referring to the struggle and warfare. Accent is on “doing right” which excludes animal magnetism. Evil is no power, no reality, only a belief—belief has not one quality of Truth. There is no transference of mortal thought and willpower. 1899 “What Our Leader Says” (<i>Miscellany</i> , by Mary Baker Eddy, p. 210). “Keep your mind filled with Truth and Love.” |
| 226 th Edition (1902) LOVE | Title of chapter “Animal Magnetism” (7 pages) Accent is on the nothingness of animal magnetism <ul style="list-style-type: none"> ▪ evil is a suppositional lie ▪ the Allness of God, good, is the answer to animal magnetism. 1910 Title “Animal Magnetism Uncovered” 1910 Title “Animal Magnetism Unmasked” (a few months later) |

Transcript of the lost 10 minutes of recording Tape B-2 #4B

EDITOR'S NOTE: After Tape 4B ends, there should be an additional 10 minutes or so of recording. This apparently was lost in the transfer from reel-to-reel to 60 minute audiocassette.

Below is the lost section from the original transcript. This transcript is not completely verbatim; it has been edited to aid understanding. There could be errors introduced by the transcriber.

LAST LINE FROM TAPE #4B: "And we've got here a standard, a measuring rod of ideas..."

"...where each term was very different from the other one. So that as we culture that and culture that, we get a round tone of what Mind is, of what Spirit is and what Soul is. Can you see that? That's the way we proceeded.

"Now having found that, we come to a quite different sense of Science. This morning I was taking the definition of what Science is, and I only took one part of it, namely where the dictionary says that:

Science. 'Science is knowledge reduced to law and embodied in a system.'

"It is Science which takes and interprets knowledge and shows the relationships. It's really analysis of what is. That is a scientific method of analysis. It takes an indefinite term, like God, and analyzes it step by step; first in the great categories of the synonymous terms, and then in further classifications of the ideas characterizing each synonymous term. But, the definition of Science goes further, and this is a major point, one which I want to make during these two weeks with you. One very important point—which raises opposition and query, but I am a tough old guy, you know, and if I see something which is right, I just go for it—Science is not only something which is used to analyze a situation, but Science should also give us the means of being creative. Oxford Dictionary says under the definition of Science that it is:

Science. 'A branch of study which is concerned either with a connected body of demonstrated truth or with observed facts, systematically classified....'

"That's what we have been doing here. We have systematically classified ideas. Perhaps we have gained about 100 or 120 ideas of Mind, and then perhaps another

100 of Spirit, of Soul perhaps only 50 or so. We had perhaps 500 to 600 definite ideas which we could clearly classify under the seven classifications of the synonymous terms. So we have done what Science demands, namely to classify the main ideas of Being so that those main ideas—which constitute Being—can be brought into a system of reference. As we have seen this morning, we have to classify them and bring them under the system of reference through the synonymous terms.

“But the definition of Science goes on and says:

‘...and which include trustworthy methods for the discovery of new truth within its own domain.’

“Now, this sounds very harmless, but it isn’t at all. It includes trustworthy methods for the discovery of new truth. If we want to apply this to Science, to Christian Science, it means that we want to be a revelator, a discoverer, and not just an analyzer or interpreter. What we have done up to now with the Textbook, you see, all this here, is really just the analysis or the interpretation of God. We do this until we have a real standard of ideas which constitute reality, or which constitute our Being. But now comes the second part of the definition of Science—which is really the main thing of any Science—namely, that when you have analyzed your subject, you begin to discover new Truth in it.”
