## Prism and Lens: An Explanation of Mary Baker Eddy's Statements

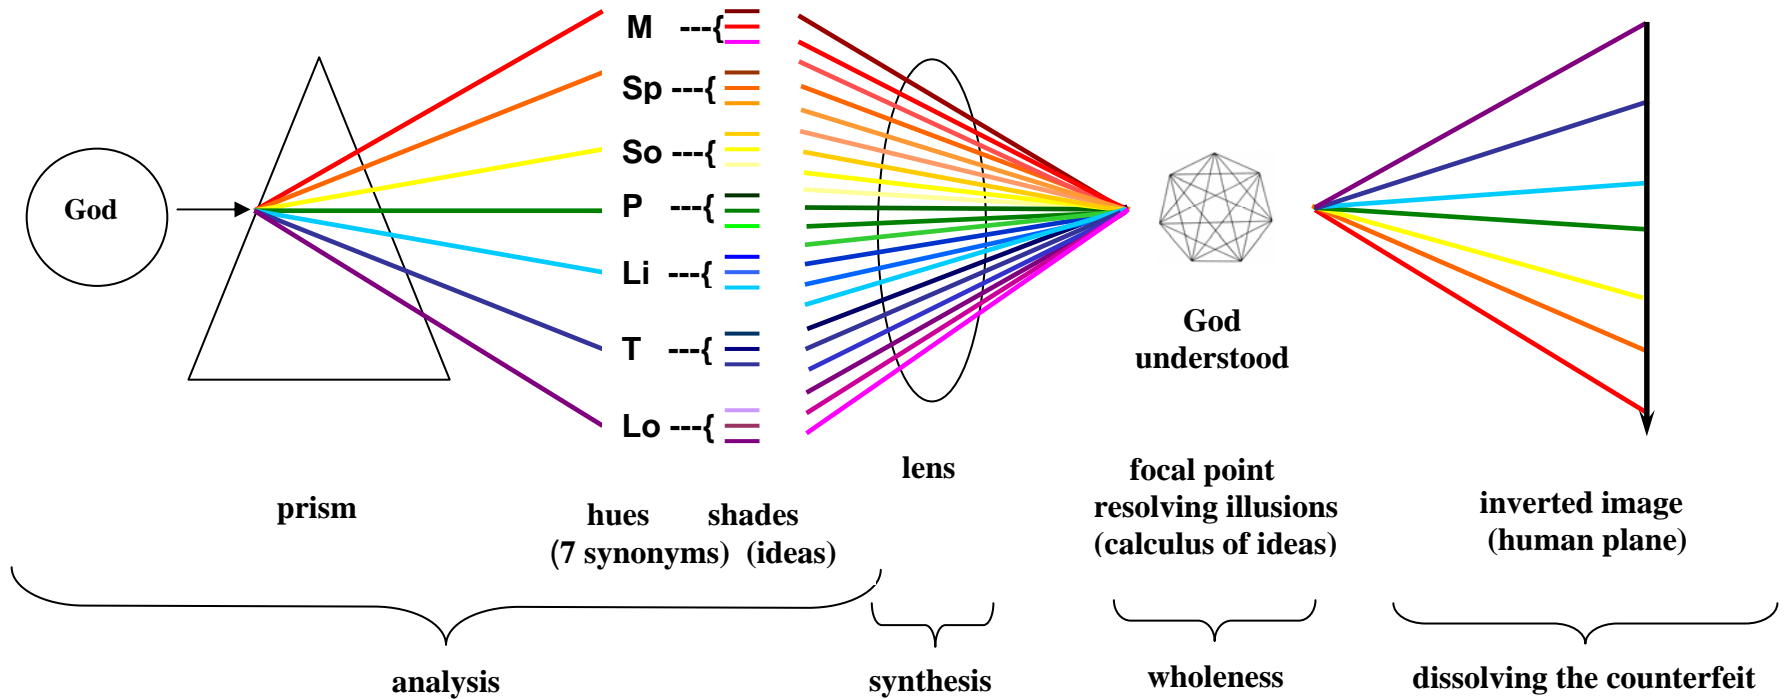

“Science is the prism of Truth,  
which divides its rays and  
brings out the hues of Deity.”  
(Ret. 35:13–14)

“The lens of Science  
magnifies the divine  
power to human  
sight; and we then see  
the allness of Spirit,  
therefore the  
nothingness of  
matter.”  
(’01 12:22–24)

“The rays of  
infinite Truth,  
when gathered into  
the focus of ideas,  
bring light  
instantaneously...”  
(S&H 504:23-24)

“Delusion, sin, disease, and  
death arise from the false  
testimony of material sense,  
which, from a supposed  
standpoint outside the focal  
distance of infinite Spirit,  
presents an inverted image  
of Mind and substance with  
everything turned upside  
down.”  
(S&H 301:24–29)

# Understanding and Demonstration

# Mind, Spirit, Soul

## divinely metaphysical

### Mind (as a symbol conveys)

- infinite Mind is the basis of reality.
- Mind alone is the only creator, producer and cause which forms the divine image.
- There is only one Mind, the infinite Mind, there are not many minds.

### Spirit (as a symbol conveys)

- The infinite Mind is the only reality.
- Substance is idea, a Mind formation, not matter.

### Soul (as symbol conveys)

- The infinite Mind constitutes our true unchangeable identity.
- All faculties of seeing, hearing, tasting, touching, and smelling are faculties of Mind, not body.

## physical

### mind – brain

- There exists mind *per se*, mind as “thinking” matter-substance.(Everyone has a separate mind.)

### matter – flesh

- There exists matter *per se*, matter as sensible life-giving substance.

### body – sense testimony

- Mind and matter combine as one.
- Sensible matter constitutes what we call body.
- All the faculties of seeing, hearing, tasting, touching, and smelling are material and belong to the body.

## The Sevenfold Principle

## From Metaphysics to Science

### The ordered steps to finding our oneness with Being (Resolving the “personal I” into the “I AM”)

*ascending way*

*Metaphysics: the contemplation of ideas*

1. All is mental (*cogito, ergo sum*)
2. The mental can be good or evil
3. Thinking in terms of ideas
4. Thinking in terms of the synonyms for God

*Science: the contemplation of the infinite One, including all ideas*

5. Only the synonyms for God in us can be one with synonym for God
6. Life, Truth, and Love is the only “I” of us
7. The synonyms for God are the only “I” or Ego
8. The “I” is “I AM”

*descending way*

*Science:*

8. I AM                    that I AM
7. This I AM            is the “I am” of all
6. This I AM            is infinitely individualized as “individual I am”
5. This I AM            has no other “I am,” no “personal I”

*Science including metaphysics:*

4. This I AM            is “the thinker” of us
3. This I AM            gives us ideas/makes God’s thoughts and “my” thoughts identical
2. This I AM            gives only good thoughts
1. This I AM            makes us “the thought of” God and therefore, “I am” (*cogitor, ergo sum*)

## True Identity

<b>Mind</b>	<b>Spirit</b>	<b>Soul</b>	<b>Principle</b>	<b>Life</b>	<b>Truth</b>	<b>Love</b>

## Harmonious Government

<b>Mind</b>	<b>Spirit</b>	<b>Soul</b>	<b>Principle</b>	<b>Life</b>	<b>Truth</b>	<b>Love</b>

## Attitude

**structural attitude**  
attitude of Science

**atomistic attitude**  
attitude of metaphysics

center: from Principle  
from the whole

center: from the personal I  
from the details

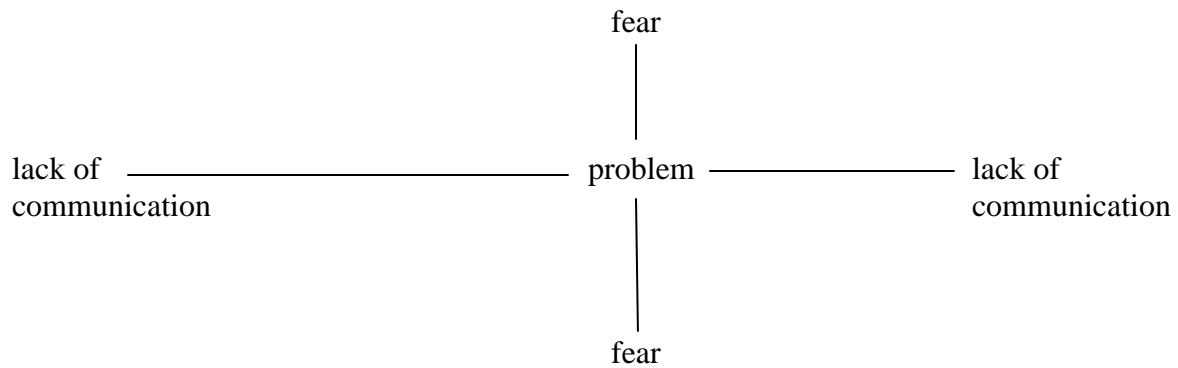

Principle, the whole, has  
its own solution.

personal I has its own solution

# Structuralism

Negative problem: a discordant relationship

Structural approach:

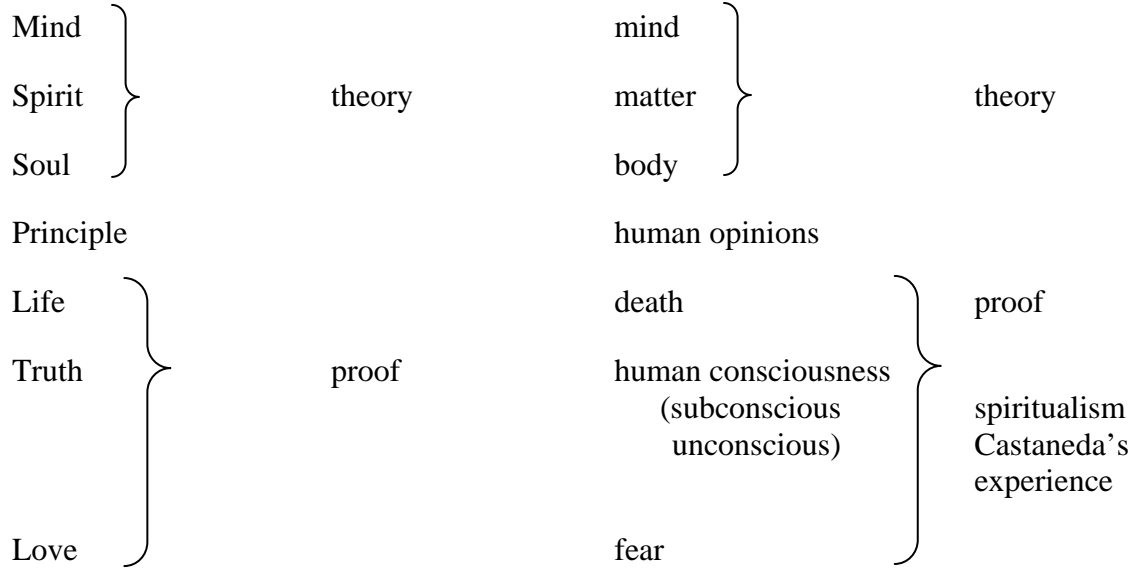

***structuralism:***

- is that method of procedure which transforms every problem into a structural problem (Amar).
- In structuralism, an object itself and its various constituents are seen as points of intersection of multitudinous systems of reference (ibid.).
