The Journey from Sense to Soul

The journey from sense to Soul is an *individual journey* and takes place within each one of us. It is a steady evolution of our consciousness from a material standpoint to a spiritual standpoint. As our individual consciousness evolves and becomes one with divine Being, our experience changes. At this time in history, we are all being called to undertake this journey, but it is up to us to actually accept the challenge.

As Kappeler states, "We cannot meet the challenges of a new age with a model of consciousness adapted to the past. New demands require new methods. Accordingly, I have tried to explain that so-called world crises are not something outside of us, but are entirely a matter of consciousness. As such, it asks each of us to undergo a fundamental transformation and deep spiritual awakening. Our duty is to pioneer this consciousness-change—to tackle the world's problems and to work out individually the demands of universal salvation. However, to do this we must once and for all shift our attention away from narrow, personal problems and address ourselves to the fundamental issues facing mankind. If we can let go of our attachment to the gnats of mortal life and be big enough in consciousness, we can fulfill our mission ... The Science of being bestows on us a gift of incomparable value—the gift of being able to discern the spiritual steps demanded by the age, including the solution to every problem facing mankind" (Edited excerpt from Max Kappeler, *The Spiritual Breakthrough to the Next Millennium*, pp. 6–7).

About Max Kappeler

Dr. Max Kappeler, Switzerland (1910–2002), was a dedicated and lifelong student of Christian Science. After completing his Ph.D. in economics at the University of Zürich, he began his pursuit of a more scientific sense of Christian Science, joining John W. Doorly's (C.S.B., London, 1878–1950) research group in 1938. The outbreak of war brought him back to Switzerland, where in 1948, after a successful business career, he felt compelled to devote his entire energies to the research, teaching, and practice of the Science of Christian Science. For over 50 years he wrote books and held classes on this subject in Switzerland, Germany, England, and the United States. His writings have been published in German and English.

The uniqueness of Kappeler's life work was that he built upon the work of his teacher, John Doorly, by elaborating the spiritually scientific laws that underlie the Bible, *Science and Health*, and the Model of Being. His work thus fully elucidated Mrs. Eddy's statement, "In the year 1866, I discovered the Christ Science or divine laws of Life, Truth, and Love, and named my discovery Christian Science" (S&H 107:1). The pith of Kappeler's work is that he defined every spiritually scientific law by its place-value within the divine system, the factors of the law, and the criteria needed to define the law. His pioneering work into the spiritual realm and its universal laws is revolutionary and unprecedented.

About the Science of Christian Science (the Science of Being)

The scientific system that underlies the Bible and *Science and Health* is comprised of three ontological root categories. These main categories, called "the divine system of reference," are:

- 1) **The 7 synonymous terms for God.** The nature and essence of God is defined in *Science and Health* as: "Mind, Spirit, Soul, Principle, Life, Truth, Love" (S&H 465:10).
- 2) **The 4-fold operation of God.** God's *modus operandi*, as defined in *Science and Health*, is derived from the four sides of the Holy City in the Bible: Word, Christ, Christianity, Science (see S&H 575:16–19).
- 3) **The 4 levels of Science.** Science in its dimensional sense is presented throughout the Textbook as: *Science itself*, *divine Science*, *absolute Christian Science*, and *Christian Science*.

Animal Magnetism—Unmasked

Max Kappeler

INTERMEDIATE

“Animal magnetism” is a 19th century term that Mary Baker Eddy used to indicate the character and workings of finite, mortal mind—what psychology calls the human psyche and consciousness. This book is a complete exposition of the concept of “animal magnetism.” It begins with an in-depth history of mesmerism, and then reviews the development and history of handling animal magnetism through studying the seven “Main Editions” of *Science and Health*. Finally it reviews the scientific method of handling animal magnetism through understanding spiritually scientific laws.

The Bible in the Light of Christian Science, Vol. I: Genesis

Max Kappeler

BEGINNER

Over the centuries the Bible has been studied bit by bit, but not as a coherent, structural whole. These bits have been interpreted from the standpoint of personal inspiration, beliefs, or theological dogma. In the late 1930s, John W. Doorly, CSB London, (1878–1950), Kappeler’s teacher, laid the foundation for the discovery of the spiritual structure underlying the Bible through his deep study of the divine categories of God as presented in the Christian Science textbook, *Science and Health with Key to the Scriptures*. Kappeler’s series of four books on the Bible reveal the structure, symbolism, and Science of the Bible. *Volume I: Genesis* sets the seed plot for the entire Bible based on the first record of creation, the second record of creation, and the seven 1000-year periods in biblical history. *Genesis* closes with the story of Joseph.

The Bible in the Light of Christian Science, Vol. II: Exodus

Max Kappeler

INTERMEDIATE

Kappeler’s series of four books on the Bible reveal the structure, symbolism, and Science of the Bible. In *Vol. I: Genesis*, thought was led up to the point of Joseph—the consciousness that recognizes that error (Egypt) must be handled. In *Vol. II: Exodus*, spiritual evolution is taken further to show exactly how error must be analyzed, uncovered, and annihilated.

EXODUS covers:

- Mind** = the birth of Moses (seven steps)
- Spirit** = the calling of Moses (seven steps)
- Soul** = the seven plagues
- Principle** = the seven proofs attending the exodus out of Egypt
- Life** = the seven ascents

The Bible in the Light of Christian Science, Vol. III: Joshua, Judges

Max Kappeler

INTERMEDIATE

Kappeler’s series of four books on the Bible reveal the structure, symbolism, and Science of the Bible. In *Volume III*, the Book of Joshua, the journey from sense to Soul (wandering) is concluded. In the Book of Judges, we learn that God demands our adherence only to that which is divinely right.

JOSHUA covers:

- Truth** = crossing the river Jordan and entering the Promised Land (seven steps).

JUDGES covers:

- Love** = settling in the Promised Land by overcoming enemies (the seven noumena of evil).

The Bible in the Light of Christian Science, Vol. IV: I & II Samuel

Max Kappeler

INTERMEDIATE

Kappeler’s series of four books on the Bible reveal the structure, symbolism, and Science of the Bible. *Volume IV: I & II Samuel* shows how prophecy develops into right government and a sense of true manhood.

I & II SAMUEL covers:

- Mind** = Samuel appears as the first prophet, Saul is appointed king of Israel
- Spirit** = Saul’s decline; Jonathan’s strength in battle; David chosen by Samuel in secret
- Soul** = Saul persecutes David, but David always escapes
- Principle** = David does not kill Saul; Saul kills himself; David anointed king
- Life** = David becomes king of both Judah and Israel
- Truth** = David’s trials and weaknesses overcome (Bathsheba, Solomon born, Absalom defeated and slain)
- Love** = Peace restored after the revolt; David’s rule fulfilled in establishing theocratic government

The Christ-idea

Max Kappeler

BEGINNER

Kappeler discusses how Mrs. Eddy depicts the Christ-idea—the self-operating, divine laws of Life, Truth, and Love—in the “Scientific Translation of Immortal Mind” (S&H 115:12–18) and the “Scientific Translation of Mortal Mind” (S&H 115:19–116:3). It is not *we* who must, or can, bring the right idea into expression—the Christ-idea works for us. Instead of personally trying to put the universe right, we look away from any human conception toward the immensity of the divine Mind, and accept that its omnipotence is working out everything for us and for the universe according to its divine plan. This will bring to light, even in human experience, the maximum of spiritual good.

Christian Government—Its Scientific Evolution

Max Kappeler

BEGINNER

Law constitutes government—a correct understanding of divine law is necessary in order to demonstrate true government. Kappeler’s spiritually scientific study of the Manual of the Mother Church reveals that the Manual contains deep laws that stand behind the self-evolution of scientific spiritual understanding. The first edition of this book was published in 1946, and was the “spring board” for Kappeler’s life work on the structure of Being/being and its laws.

The Christian Science Textbook: Science and Health with Key to the Scriptures by Mary Baker Eddy—our way of life and our teacher

Max Kappeler

BEGINNER

This booklet shows the irrefutable order of “the way of Life.” When surveying the spiritual evolution from Chapter I “Prayer” to Chapter XVI “The Apocalypse,” one is deeply impressed by the overwhelming fact that *Science and Health* leads thought in an ordered way. As we learn how to understand the structural relationships within the framework of the Textbook, we clearly see that the Textbook and the Bible are our most reliable teachers.

Complete Compendium for the Study of Christian Science

Max Kappeler

INTERMEDIATE

Mary Baker Eddy (discoverer and founder of Christian Science) said that upon the 7 synonymous terms for God rests the Science of Being. We must learn the divine meaning of Mind, Spirit, Soul, Principle, Life, Truth, and Love. Building upon the work of his teacher, John W. Doorly, Max Kappeler presents the ideas or characteristics of each of the 7 synonyms as defined in *Science and Health*. This book is a must-study for every sincere student of Science.

Christian Science in the World of Today and Tomorrow

Max Kappeler

BEGINNER

This booklet shows how that, unlike development and unfoldment, evolution brings *mutations*—new breakthroughs that do not obey the law of causality, where cause determines effect. Christian Science is revolutionary in its very nature; the method of allowing the Christ-idea to completely change our consciousness proves to be the only way of achieving true spiritual progress.

Max Kappeler

INTERMEDIATE

This book follows the correlation between a developing understanding of Christian Science and the evolving sense of practice. It follows the emergence of the idea of Christian Science, the steps of Mary Baker Eddy’s own spiritual development, and the evolving understanding emerging from the work of pioneering thinkers in Christian Science. For anyone interested in investigating the issue of spiritual healing, this book is invaluable, for it clearly explains the difference between mind/faith healing and healing through the Science of Being.

Max Kappeler

ADVANCED

This booklet presents an analysis of the specific claim of duality and its final dissolution. It takes the question “Is being material, spiritual, or both?” through the 4-fold operation of being (Word, Christ, Christianity, Science) on each of the 4 levels of spiritual consciousness (Science itself, divine Science, absolute Christian Science, Christian Science). An “advanced” treatment of this subject.

The Epistles in the Light of Christian Science

Max Kappeler

ADVANCED

This book shows us that within each Epistle there *is* a spiritually ordered layout that defines spiritual laws. Using the same scientific method of text interpretation applied in Kappeler’s book on the Minor Prophets—which illustrates the Christ-matrix—the Epistles define the *Christianity-matrix*.

The Epistles teach Christianity in its full sense, namely as the reciprocal relationship of man to the grace of God (Word), the glory of Christ (Christ), the idea of man’s perfection (Christianity), and the Science of man (Science). This book elucidates the underlying eternal self-evolving laws of Principle, God. It is a clear and logical presentation of the laws that lie behind true Christianity, revealing the timeless availability and applicability of their messages.

Epitomes for the Spiritually Structured Interpretation of the Christian Science Textbook

Max Kappeler

ADVANCED

One important tool for scientific text-interpretation is the method of working with epitomes based on the three fundamental categories of Being. Through the structure of divine categories, we can discern the basic spiritual laws taught in the Textbook. In this book, Kappeler uses epitomes to outline the exact spiritually scientific structure of the Textbook.

Evolution—Material or Spiritual?

Max Kappeler

BEGINNER

In his book *Human Destiny*, Pierre Lecomte du Noüy put forward a revolutionary theory regarding the evolution of life—a theory that resulted from his life-long research in the field of natural science. In this booklet, Kappeler summarizes du Noüy’s theory of evolution in the light of the Science of Christian Science. Du Noüy explained evolution through seven distinct stages. Kappeler shows that these seven stages are the result of the impact of the 7-fold nature of God as: Mind, Spirit, Soul, Principle, Life, Truth, and Love (see S&H 465:10).

The Four Levels of Spiritual Consciousness: Science itself, divine Science, absolute Christian Science, Christian Science

Max Kappeler

INTERMEDIATE

This book is an in-depth look at the Model of Being, which shows the interrelationship between the 7 synonyms for God, the 4-fold operation of Being, and the 4 levels of spiritual consciousness (the 7+4+4 = the divine system of reference). With these 15 “root notions,” the dimensional range of spiritual Being can be symbolized and understood. Being can be understood only through dimensional logic, and learning to reason from each of the 4 levels of consciousness will clarify the apparent contradictions and paradoxes that arise in the study of the Bible and *Science and Health*. This book is one of Kappeler’s foundational texts and should be undertaken after a good grounding in the tonality of the 7 synonyms.

The Imperative Step: The Step from Metaphysics to Science

Joel Jessen

BEGINNER

This book discusses how a new spiritual standpoint is breaking in on world consciousness—mankind is being moved from the standpoint of isolated human thinking, the human “I,” toward the comprehensive consciousness of the divine Mind, the “I AM.” This is seen as the “step” from metaphysics to Science. Who or what is impelling mankind forward? Mary Baker Eddy states: “Eternal Truth is changing the universe. As mortals drop off their mental swaddling-clothes, thought expands into expression” (S&H 255:1). The purpose of this book is to present the Christ Science, or divine laws of Life, Truth, and Love, that are behind the imperative step happening today.

The Law of the Self-evolution of Scientific Spiritual Understanding

Max Kappeler

INTERMEDIATE

How do we, as individuals, progress from belief, to faith, to scientific understanding in our study of the Science of God? This book uncovers the divine *law of self-evolution* behind our individual journey toward spiritual understanding. It shows how our understanding and demonstration of true man evolves spiritually and scientifically through the order of the 7 synonyms for God and the structure of *Science and Health* to achieve an insight into the universal laws of Being.

Logical Reasoning in Christian Science

Max Kappeler

BEGINNER

The Bible and *Science and Health* can often seem to be contradictory and paradoxical. This is because we tend to read them with the classical two-valued logic of orthodox thinking, not the one-valued, infinite logic that allows us to see their consistency. Fundamentally, the entire message of *Science and Health* is oriented toward leading us to the realization that all discord is merely the consequence of incorrect reasoning and that the error that arises from this false logic must be corrected by divine logic. Reasoning in the Science and logic of Christian Science is not just an intellectual game. The dimensionalism of Christianly scientific logic makes it possible for all questions posed at the different levels of consciousness to find their respectively spiritually logical answers.

Man: The Thinker—or the Thought?

Max Kappeler

INTERMEDIATE

Where does thinking come from? The German philosopher Martin Heidegger (1889–1976) said: “We do not arrive at thoughts. They come to us.” In the light of Christian Science, we see that divine Mind “sends” exalted thoughts to us. In a similar vein, Professor Max Born (1882–1970), Nobel prize winner for physics, said: “I believe that science is an institution that progresses irresistibly, and that it is useless for a few people to try to force the development into another direction.” It seems apparent that it is the idea of science—and not the scientist—that plans the course of science.

Metaphysics and Science in Christian Science

Max Kappeler

INTERMEDIATE

Divine metaphysics proceeds from a basis entirely separate from human thinking. The Textbook states that, whereas ordinary metaphysics is based on “a law of mortal mind” (S&H 154:4), “God is the Principle of divine metaphysics” (S&H 112:32, also 111:11). “Divine metaphysics ... shows clearly that all is Mind, and that Mind is God” (S&H 275:20). Therefore, divine metaphysics alone can bring the solution to the human mind, removing the false effects by correcting the false cause. In the light of the Science of Christian Science, we see that: “Metaphysics [meaning the metaphysics of Christian Science] involves the contemplation of ideas, whereas Science involves the contemplation of the infinite One, forever including within itself its own ideas” (see John W. Doorly, *Oxford Summer School Talks, 1949, Vol. II*, p. 132).

The Minor Prophets in the Light of Christian Science

Max Kappeler

ADVANCED

One of the essential premises for a scientific approach to God is that there are spiritual laws inherent in being, and that these laws are structured and unfold to us in an ordered way. This book shows us that within each prophetic book of the Bible there *is* a spiritually ordered layout. Each prophet announces the Christ-operation through a different aspect—the 12 Minor Prophets and the 4 Major Prophets describe the 16 different offices of the Christ, which, when represented in a *4x4 Christ-matrix*, form a coherent, divinely structured whole. These scientific orders give rise to spiritual laws, revealing the timeless messages of the prophets.

The Necessary Change of Standpoint

Max Kappeler

BEGINNER

Christian Science teaches that there is only one true Being, and that by identifying ourselves with the one Being, we can consciously experience it in our lives. But this is an enormous task. To willingly give up everything that does not coincide with Being is quite a process. This booklet outlines the steps and changes necessary for us to leave behind the old structures of consciousness and adopt a purely spiritual structure of consciousness.

Notes on Handling Evil with References from the Works of Mary Baker Eddy

Max Kappeler

INTERMEDIATE

Some will say that it is not necessary to handle evil. However, those schooled in Science understand the necessity of handling evil in everyday life experiences. It was “wisdom” that bade Moses to handle evil, and this process became a “staff” to him (see S&H 321:8–18). Max Kappeler’s epitomes assist students in their work on the subject of “handling evil.” Excellent references are cited from the Bible and *Science and Health*.

The One Man

Max Kappeler

ADVANCED

Man is the compound idea of God, including all right ideas (see S&H 475:14). The one real man is the combination of all of God’s ideas, that is to say, all the ideas of Mind, Spirit, Soul, Principle, Life, Truth, and Love. This compound idea of God is also called generic man. Man is “the generic term for all that reflects God’s image and likeness” (S&H 475:15), and “God is one. The allness of Deity is His oneness. Generically man is one, and specifically man means all men” (S&H 267:5).

The Ordered Approach to the One Being

Max Kappeler

INTERMEDIATE

This book presents the *eight ordered steps* to finding our oneness with Being. It shows how we evolve out of manifold beliefs of duality to the awareness that there is only God’s consciousness of itself. It shows the steps that lead us away from a personal “I” to the consciousness of the “I AM THAT I AM” (Ex. 3:14), and how this I AM translates itself down to “our” thoughts and life experience. This is an important step in culturing “the spirit” of Christian Science.

The Pioneer of Truth is Blessed

Max Kappeler

INTERMEDIATE

Max Kappeler points out that in “The Revelation of St. John” (Rev. 12), the “woman clothed with the sun,” was “with child,” and the great red dragon “stood before the woman which was ready to be delivered, for to devour her child as soon as it was born.” In *Science and Health* we read: “From the beginning to the end, the serpent pursues with hatred the spiritual idea” (564:29). This booklet shows that the best protection for a spiritual idea lies in taking it back to its divine origin—embedded in its divine Principle, Love. Then animal magnetism can touch it no more.

The Psychology of Spirit

Max Kappeler

INTERMEDIATE

This booklet contrasts the psychology of Spirit, God (see S&H 369:25) with the psychology of human thinking. It uncovers the extent to which we let ourselves be influenced by the general mental atmosphere. The spiritual method of mental self-knowledge enables us to maintain a divinely correct concept of what constitutes our true self and our relationships. We learn to discover who we are as defined by God and stop defining ourselves and our families according to our human nature. In addition, the paragraph “Anatomy defined” is analyzed (see S&H 462:20–463:4).

Max Kappeler

BEGINNER

This book provides a provocative and lively discussion of the problems facing The Mother Church (Boston) today, and the solutions given from the standpoint of Science. The important questions are: What is the cause of this crisis, and can we continue to consider the idea of Christian Science in the same way? This book challenges the reader to consider Christian Science as a *Science*, and not merely as a religion, and shows what Mrs. Eddy meant when she said that “Science ... is revolutionary in its very nature” (Mis. 99:1).

The Science of the Oneness
of Being in the Christian
Science Textbook

Max Kappeler

ADVANCED

This book shows how Christian Science finally resolves the question of oneness and duality. The question of oneness has occupied humanity from earliest times. The Bible repeatedly asks: Is there only one God, or many gods? The Greeks tried to trace the multiplicity of phenomena back to one primary principle. Through Science, the One becomes the many (infinitely individualized) yet still remains the One. In *Science and Health*, the first 16 chapters reveal 16 fundamental laws that uncover 16 root-beliefs of duality and establish the true oneness of being.

In the Christian Science textbook, God is defined as *Mind, Spirit, Soul, Principle, Life, Truth, and Love*, the 7 synonyms for God (see S&H 465:8–15). A thorough understanding of this 7-fold nature of God is central to understanding the Science of Being. This book offers a comprehensive account of the 7 synonyms—including their history, their individual tonality, and how their 7-fold nature operates dimensionally on every level of spiritual consciousness. Through the scientific method of synonym research explained in this book, we gain a divinely objective understanding of God.

The Spiritual Breakthrough
to the Next Millennium

Max Kappeler

INTERMEDIATE

The future of mankind rests entirely with the development of spiritual consciousness. This timely book shows the ordered development of spiritual consciousness through the seven 1000-year periods in biblical history, which stretch from 4000 BC to 2000 AD and onwards. It also explains the important place-value of *Science and Health* in the light of the 1000-year periods. Each successive period in spiritual history demands a higher form of understanding and method of practice. As the great tone of the seventh 1000-year period crystallizes and takes form in consciousness, we find that a new and higher life experience is urging itself upon us during this critical period.

“Stately Science Pauses Not”
(Mary Baker Eddy)

Max Kappeler

BEGINNER

This booklet explains that the impulsion of the divine idea has evolved scientifically. After Mary Baker Eddy left us, John W. Doorly, CSB, of London, England (1878–1950), was the first to pursue deeply the question of what Christian Science means as a *Science*. Dr. Max Kappeler of Zürich, Switzerland (1910–2002), a pupil of John Doorly, expounded upon Doorly’s work and, among many discoveries, revealed the scientific structure of *Science and Health*. Both Doorly and Kappeler showed that Mary Baker Eddy must be acknowledged as a Scientist who was far in advance of her era. Mrs. Eddy’s concept of Science incorporated such advanced concepts as structuralism, dimensionalism, holism, one-valued logic, gestalt-theory, general systems theory, and divine cybernetics.

Taking Responsibility
for the Idea

Max Kappeler

ADVANCED

We may ask: Can the idea of Christian Science ever be lost? Kappeler answers this question with a “no and yes”! No, it cannot be lost from the standpoint of Principle, God. However, from the standpoint of the human mind, this claim must be handled, or the idea could be lost to mortal mind—i.e. to mortals. This is what happened soon after the spread of Christianity, and it took hundreds of years for the idea of true Christianity to be rediscovered. Mary Baker Eddy, in her article “Principle and Practice,” declared: “Christian Science is not a faith-cure, and unless human faith be distinguished from scientific healing, Christian Science will again be lost from the practice of religion as it was soon after the period of our great Master’s scientific teaching and practice.” Our responsibility is to understand the Science of God, not just believe in it.

This book is revolutionary. It reveals a coherent, ordered Science and system of divine laws underlying *Science and Health with Key to the Scriptures* by Mary Baker Eddy. This order follows in an uninterrupted sequence, from Chapter I, “Prayer,” through Chapter XVI, “The Apocalypse.” The structure of Being establishes itself as the structure of the Textbook—as it does for all revealed texts, including the Bible. The more one understands the Textbook through its divinely scientific, spiritual structure, the more the structure of Being becomes the structure of our consciousness and our being. This Lie Called Evil

Denise Breton

ADVANCED

This book shows a systematic analysis of evil through the three categories of Science—the 7 synonymous terms for God, the 4-fold operation of God, and the 4 levels of Science. Evil is seen as a misunderstanding about God, and not a thing or entity itself. The ultimate resolution of evil, therefore, involves understanding God through Science, rather than “fighting” the phenomena of evil as they appear in our individual and collective experience. This method was presented by Mary Baker Eddy in her Textbook, and researched and taught by John W. Doorly and Max Kappeler in their work on the Science of Christian Science.

Truth and Scientific Truth

ADVANCED

Mankind is always searching for Truth, but we must understand the difference between a “truth” and a “scientific truth.” A scientific truth requires an understanding of its context within the whole, whereas a truth is considered only as an isolated fact. For example: a truth stated in *Science and Health* has no spiritual impact on our lives unless it is seen in the context of the entire structure of the Textbook’s 16 chapters.

What is the Science of Being?

BEGINNER

This booklet broadly outlines the Science of Christian Science. When we think about being, we find there are four fundamentally important questions to be answered:

1. What is reality?
2. How can I unite with reality?
3. How can this new method be of practical use?
4. How do I become schooled in the understanding of reality?

When we consciously unite with the nature and essence of spiritual reality, we touch a power far greater than any other known to man.

Class: 1978, Wilmington, DE

Syllabus II provides insight into the “numerals of infinity” and the “divine infinite calculus” of Being. It builds on the tones of the 7 synonyms for God and shows “blending” (reflection) of each synonym and their ideas with all the other synonyms, giving insight into the self-reflection of Being, which forms the underlying spiritual structure of the Bible and *Science and Health*. “The numerals of infinity, called *seven days*, can never be reckoned according to the calendar of time. These days will appear as mortality disappears, and they will reveal eternity, newness of Life, in which all sense of error forever disappears and thought accepts the divine infinite calculus” (S&H 520:10).

Syllabus V

1981, Elizabethtown, PA

The structure of the Bible and *Science and Health* rests on three fundamental categories of divine Being. They are:

(1) The 7 synonymous terms for God

(2) The 4-fold operation of God

(3) The 4 levels of Science

The first 2 categories were dealt with in *Syllabus I–IV*. The third category, the *4 levels of Science*, is discussed in this class. The 4 levels of Science are vital for understanding the oneness of Being, as they explain how the infinite One, through translation, operates as “the many” on different levels of conscious experience, yet still remains the infinite One.

From Atomistic Thinking to Cybernetic Comprehensive Consciousness

1970, Ogunquit, ME

Upon completion of this class, Max Kappeler declared joyously: “I have just presented a comprehensive overview of the orderly unfoldment of spiritual consciousness.” He realized that he had touched upon Mary Baker Eddy’s statement: “This creation consists of the unfolding of spiritual ideas and their identities, which are embraced in the infinite Mind and forever reflected. These ideas range from the infinitesimal to infinity, and the highest ideas are the sons and daughters of God” (S&H 502:29).

Christian Science Practice: Based on the Science of divine revelation

1976, Wilmington, DE

This class on Christian Science practice is designed for students who already have a good working knowledge of the divine system of reference in Christian Science. Kappeler deals with the historical, theoretical, and practical implications of practice. Since Principle and practice are one, one’s spiritual development impacts their practice. Therefore, the basis of our spiritual development must be sound—nothing is more practical than a good theory, and nothing is more impractical than practice without theory.

Structural Consciousness

1984, Whittier, CA

Because our age is an age of “science,” we are urged to cultivate a structural consciousness. We need to make the transition—the paradigm shift—from atomistic thinking and reasoning to a structural understanding of being. Today we understand that “knowledge of a single fact, not known as related to any other ... does not reach the meaning of science: science is knowledge reduced to law and embodied in a system” (Funk & Wagnalls Dictionary).

C-I The Structure of the Christian Science Textbook—Our Way of Life

Overview of C-I Series: For over 50 years, Max Kappeler presented the structure of the Christian Science textbook through books, lectures, and classes, showing the divinely structured layout of each chapter. Kappeler’s premise is that *Science and Health with Key to the Scriptures*, by Mary Baker Eddy, is a revealed text and contains the divine categories of Christian

Science. Read atomistically (sentences read out of context), the divinely inspired structure is missed. Our challenge is to understand Mrs. Eddy’s revelation in its *Science* and categories, something that can only be achieved through understanding the Textbook’s spiritual system and structure. When John W. Doorly pointed out the fundamental categories of the scientific

system of Christian Science, it became possible for Kappeler to interpret the entire Textbook as a divinely structured, coherent story. This story leads the student through an evolution of understanding and consciousness in an uninterrupted, ordered way, from the first page to the last. This spiritual story is our ordered way of life and our teacher.

Classes: From 1956 to 1982

BEGINNER

In these lectures, Kappeler shows the divinely scientific structure of *Science and Health with Key to the Scriptures*, by Mary Baker Eddy. His method was to find the main subjects within each chapter, and then consider them in their ordered sequence. This method revealed that most of the main subjects within each of the 16 chapters follow the definite order of Mind, Spirit, Soul, Principle Life, Truth, Love—the order given in the definition of God (see S&H 465:10). Then Kappeler discovered that the sequence of the chapters follow the definite order of Word, Christ, Christianity, Science—the order of the four sides of the Holy City, as envisioned in the book of Revelation. Using this method, the Textbook can be seen as one great systematic elaboration of the fundamentals of Christian Science.

Chapter XIV explains how divine Principle expresses itself through a scientific system of metaphysics. Science has a Christ, and the office of the Christ in Science is to reduce or translate the divine Principle to a system of ideas which can be taught, learned, demonstrated, and lived. In its first form, this chapter appeared as a separate booklet entitled “The Science of Man,” and was used by Mrs. Eddy for Class Instruction. Here Mrs. Eddy expounds the divine Principle and its operation that underlies every single chapter in the Textbook. This chapter has a very symmetrical layout. The 24 questions and answers are divided into four groups of six questions and answers each. We find that there are six questions and answers that depict the Word, six the Christ, six Christianity, and six Science.

The Christian Science Textbook:
A workshop on text-interpretation

Overview of C-2 Series: The C-I series introduces the divine structure of the Textbook. In the C-2 series, Kappeler outlines the exact method that enables a student of Science to get beyond personal interpretations of a revealed text and discover its divinely objective structure. Using Chapters I–V in the Textbook as a working example, these classes teach the fundamental method of spiritually scientific text-interpretation:

- 1) How to discern the spiritual structure of the text based on the categories of divine Being.

- 2) How the Textbook presents its spiritual symphony, and how to distinguish the leading tones and elements within the symphony—the method of epitomizing.
- 3) How to work with the spiritual structure to answer questions intrinsic to the subject, as well as practical implications for daily living.

This program is for more advanced students of Science. A comprehensive understanding of the divine system of reference (ie: completion of the Syllabus program and C-I Series is recommended.

Over the last century, the understanding of Christian Science has gradually evolved from the standpoint of metaphysics (the contemplation of ideas) to the standpoint of Science (the contemplation of the infinite One, including its own ideas). The Science of Oneness in the Christian Science Textbook 1977, Wilmington, DE

ADVANCED

The mystic conceives of “oneness” as an undifferentiated whole, whereas the Christian Scientist explains the infinite One as a systematically, classified, differentiated whole that has categories, structure, and divine laws. The aspects of oneness in the 16 chapters of *Science and Health* are stated through definite divine laws which are operating in every facet of our daily life. The specific aspect of dualism dealt with in each chapter is also analyzed.

The 4 Levels of Science 1967–68, London, England

INTERMEDIATE

Divine Being, God, can be scientifically understood only when we learn how the infinite One interprets itself through the 4 levels of Science according to its divine laws of translatability. Christian Science, absolute Christian Science, divine Science, and Science itself. With each level of Science, the form of consciousness changes, different questions are dealt with, varying phenomena appear, and fundamental problems such as evil, matter, and healing are resolved.

Divine Cybernetics: The proto-science, the integral Science 1969, Braunwald, Switzerland

INTERMEDIATE

This class provides an introduction to “divine cybernetics,” the self-operating, self-organizing, self-regulating, divine laws of Life, Truth, and Love (see S&H 107:1–3). These divine laws are the inherent force behind the error-preventing and error-correcting self-regulating feedback circuit of divine Being. Our job is to culture a spiritual consciousness, which allows us to accept in our lives the self-operation of God, the divine Principle of all being.

The 7 Synonymous Terms for God: Symbols of the dimensional translatability of God 1969, New York, NY

This talk is geared to those students who already have a general understanding of the 7 synonymous terms for God and their specific ideas. Through an understanding of the dimensional translatability of God, we discover that the power of an individual idea is the power of the infinite One itself. Each synonym is shown to symbolize a different divine law when viewed from the standpoint of the 4-fold operation of God (Word, Christ, Christianity, and Science) and the 4 levels of Science (Science itself, divine Science, absolute Christian Science, and Christian Science).

Divine Cybernetics and the Self-operating “Dimensional Laws” of the One Being, God 1971–72, New York, NY

This class is revolutionary, as it presents the “divine laws of Life, Truth, and Love” discovered by Mary Baker Eddy (S&H 107:2). The Model of Being is the framework in which these divine laws are explained. The subject dealt with is divine cybernetics—the divine laws of interdependence operating on the levels of divine Science, absolute Christian Science, and Christian Science. These divine laws form the essence of our everyday life experience. This class, along with E-1, can be considered Kappeler’s highest teaching. It is recommended that students have completed the following prior to this course:

The Structure of Being and its Universal Laws 1973, New York, NY

Every science rests on laws. Christian Science teaches the divine laws of God. What are these laws? How can they be defined? How do they operate? How do they govern our everyday life experience? This class answers these questions, which can be considered Kappeler’s highest teaching of the Science of Being (along with D-4).

It is recommended that students have completed the following prior to this course:

The Matrix of Immortality: Code of divine laws 1974, Wilmington, DE

Mary Baker Eddy refers to the “matrix of immortality”—the matrix of Being. Matrices are a scientific tool for presenting a complex subject in a clear and concise way. Matrix work cultivates our ability to reason in categories, and aids in the recognition of structure and laws. Once this structure is recognized, matrices can be guides for creative thinking and lead to greater insight.

This class gives a clear introduction to what constitutes a matrix and how matrices are used in Christian Science as tools for understanding Being and its universal laws. It is designed for students who are well acquainted with the three categories (7+4+4) comprising the divine system of reference.

The Minor Prophets in the Light of Christian Science 1960, London, England

In *Science and Health* we find “the Key to the Scriptures.” This key consists of the categories of Being: the 7 synonyms for God, the 4-fold operation of Being, and the 4 levels of Science. John W. Doorly, Kappeler’s teacher, showed how biblical symbolism can be interpreted with this key, thereby showing that there is one spiritual system that underlies the Bible, *Science and Health*, and Being itself.

Adhering to this spiritually scientific system, Kappeler shows that the Prophets in the Bible—the twelve Minor Prophets and the four Major Prophets—announce the Christ-operation through a different divine aspect when considered in a 4x4 Christ-matrix. Within each prophetic book there is an ordered layout, which gives rise to timeless spiritual laws.

The Epistles in the Light of Christian Science 1962, Los Angeles, CA

Using the same spiritually scientific method of biblical text-interpretation as in the class on the Minor Prophets (see F-1), the spiritual laws underlying each Epistle are discerned. The Minor Prophets illustrate the *Christ-matrix*, whereas the Epistles give an example of the *Christianity-matrix*. The Epistles teach “Christianity” in its full sense as the reciprocal relationship of man to the grace of God (Word), the glory of Christ (Christ), the idea of man’s perfection (Christianity), and the Science of man (Science). Furthermore, they show the spiritual evolution that must take place in consciousness, bringing salvation through faith in grace. By accepting the new faith (Word), claiming it (Christ), steadfastly abiding in it (Christianity), and living it, we can prove the effectiveness of this new faith (Science).

The Epistles: The laws of scientific Christianity 1986, Cazenovia, NY

Christianly scientific manhood can be demonstrated, not by starting with man, but by working from the category of the 4-fold operation of Being: Word, Christ, Christianity, and Science. In this context, we evolve our true manhood scientifically by relying on the workings of the Christ in all aspects of life. Each of the 16 Epistles presents a distinct standpoint within the 4x4 Christianity-matrix in the Bible. Reasoning deductively from this matrix, we understand and demonstrate our true being. These structural findings are verified by using the text of the Epistles to explain the method of scientific text-interpretation.

Doorly presented in his *Talks at the Oxford Summer School 1949, Vol. II*, Kappeler presents the predominant theme of this Gospel, “the Science of true Christianity.” This class is a must for all students of Science, as it explores the place-value of St. John’s gospel within the Model of Being—the point of the Science-order on the level of Christian Science.

The Practical Implications of the Spiritual Structure of the Gospel of St. John 1991, Cazenovia, NY

This class builds upon Kappeler’s 1990 class on the “Gospel of St. John,” revealing the practical implications of St. John’s message for everyday life-practice, and its timeless universality. The “Gospel of St. John” shows the shift from an atomistic consciousness (old science) to a structural, dimensional, cybernetic, and holistic consciousness (new science) through Jesus’ mission. We see how St. John’s teachings present the “new” scientific Christianity, one that prefigures today’s world situation and demands.

This class focuses on the new concept of holistic Science implicit in Mary Baker Eddy’s revelation. Whereas, the science of the last three centuries has been marked by atomistic, material, and reductionist methods, the “new science” takes as its object, method, and aim, “the whole”—divine reality. Kappeler shows how this new science reflects the Science of Christian Science—the universal Science of all sciences. More than any political or technical alternative, this Science offers a total solution to today’s world crises.

The Spiritual Challenge of Today
1983, Elizabethtown, PA

BEGINNER

What was Mary Baker Eddy’s concept of spiritual progress? Drawing upon her article, “Caution in the Truth” (Un. pp. 1–7), Kappeler shows that, just as the sciences and all mankind have undergone continual and dramatic evolution, so too must human understanding of the divine idea in its Science evolve. In 1887, the most that students of Christian Science could accept was the Science of physical harmony. Today, Science demands that we investigate the Science of spiritual harmony.

Mini recording from A-6V, #3

The dimensionality of the one Being is discussed, giving a dimensional understanding of all levels of consciousness and life-experience by explaining the one Being through 4 aspects of Science (Science itself, divine Science, absolute Christian Science, and Christian Science). This discussion is set within the framework of the Model of Being. The concept of dimensionalism shows that being is not restricted to one realm, but embraces multiple levels or dimensions at once.

The Tones of the 4 Levels of Science

Mini recording from A-6V, #4–8

Kappeler discusses how the 4 levels of Science (Science itself, divine Science, absolute Christian Science, and Christian Science), provide a dimensional analysis of specific issues: life, death, evil, matter, healing, problems, and Jesus as a Scientist. Exercises are done along the ascending way of understanding, from the level of Christian Science to the level of Science itself. These exercises train us to avoid the temptation of trying to “leap” directly to the standpoint of Science-itself.

The 7 synonymous terms for God—Mind, Spirit, Soul, Principle, Life, Truth, and Love—are found in *Science and Health* (see p. 465:10). But what does each term mean? We gain the full meaning of each synonym by first identifying the *ideas* associated with that synonym (as found in *Science and Health*). Then, by pondering all of the ideas, the full tone of each synonym becomes clear. A good grounding in the tonality of each synonym is necessary for a full understanding of Science.

Progressive Study Program

The progressive study program categorizes selected Kappeler books by their spiritually scientific complexity, and is divided into three sections: Beginning, Intermediate, and Advanced. Within each section are three categories: Core Recommendations. The Core contains the essential elements for a basic understanding of Science. Reading the Core within each section will provide you with the minimum number of study materials necessary to progress to the next section. Additional Literature. This category contains additional study materials appropriate to that section. Select these items if you wish to gain a fuller understanding of Science before moving on to the next section, or if you want to study certain topics in more depth.

Related Classes. This section can be found in the last column. These recorded lectures cover the same or related topics presented in the literature in the first column. Selecting at least one recorded lecture within each section will significantly improve your understanding of the topics being presented in the literature. Do not feel that you must strictly adhere to these recommendations—feel free to choose items that appeal to you. Our suggestions are best used as a compass rather than a curriculum. Allow your selections to reflect your background, interests, and goals in Science. Ultimately you are guided by the self-evolution of understanding of the Christ-idea. If you have questions about your study program, contact KI USA.
